Divorce is painful and confusing. Perhaps now more than ever, you want to give your child all the love, support, and guidance he or she needs, but everything seems harder and more complicated. Helping Your Kids Cope with Divorce the Sandcastles Way can help. Based on Gary Neuman's phenomenally successful Sandcastles program, which has helped more than fifty thousand children cope with divorce, this warm, empathetic guide shows you: How to build a co-parenting relationship--even when you think you can't When you or your child should see a therapist Age-appropriate scripts for addressing sensitive issues What to do when a parent moves away How to stop fighting with your ex-spouse How to navigate the emotional turmoil of custody and visitation How to help your child deal with change How to cope with kids' common fears about separation How to introduce significant others into the family and help your child cope with a new stepfamily More than a hundred pieces of artwork from children of divorce will help you appreciate how kids perceive the experience. Dozens of special activities and fun exercises will help you communicate and get closer to your child. This guide shows you that divorce need not be an inevitable blot on children's lives, but an opportunity for them to grow and strengthen the bonds with their parents. "Gary Neuman has a wonderful way of nourishing parents while reminding us that there are no simple ways to help children through complicated family times. Whether we're parents, grandparents, or friends, all of us can be grateful for Gary's encouragement to be natural as we talk to--and listen to--our children. We can also be thankful for his support as we reach out for extra help when we feel we need it." --Fred Rogers, creator of Mister Rogers' Neighborhood "Of all the how-to advice about divorce on the market, the best is probably wrapped up in the book Helping Your Kids Cope with Divorce the Sandcastles Way. It's sympathetic, practical and loving; it covers all the problems faced by children of divorce; and it gives an excellent rundown of the reactions you can expect, age by age." -- The Washington Post
